Office Action Summary	Application No. 10/615,014	Applicant(s) KIMURA, MUTSUMI	
	Examiner A. Sefer	Art Unit 2826	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

1. The amendment filed 12/10/04 has been entered and claims 3 and 5-17 have been cancelled.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Kitani (JP 2002-98990).

Kitani discloses in figs. 5 and 6a a thin-film transistor, comprising: an active region; a source region 21; and a drain region 22, the source region and the drain region being provided at each side of the active region, respectively; an area of a cross section of the source region being approximately equal to an area of a cross section of the drain region, said cross sections taken along a plane generally perpendicular to a mounting surface of the thin-film transistor; the source region and the drain region including regions adjacent to the active region, the adjacent regions 23 including lightly doped impurity regions with an impurity concentration less than an impurity concentration of the drain region; and the lightly doped impurity regions being provided in an asymmetrical form in which the lightly doped impurity region in the source region is smaller than the lightly doped impurity region in the drain region or the length, in the longitudinal

direction of a channel, of the lightly doped impurity region in the drain region being longer than the lightly doped impurity region in the source region (as in claim 2).

As for claim 4, Kitani discloses a gate electrode 12 provided at a position facing the active region, with an insulating layer provided therebetween, the boundary between each lightly doped impurity region and the active region approximately matching one end of the gate electrode.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chen US PG-Pub 2004/0201017 discloses (par. 0024) an asymmetry TFT.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
